FIRST MEETING OF SEASON OF TOURIST CLUB

Social Session Planned For Friday at Chamber of Commerce Rooms

THIS WILL BE THE VISITING TOURISTS IN ORDER THAT ALL MAY BECOME ACQUAINTED—OFFICERS OF THE CLUB WILL BE CHOSEN THE FIRST TUESDAY IN FEBRUARY.

The Pensacola Tourist club held the first meeting of the season at the Chamber of Commerce building on Tuesday afternoon, the meeting having been called for the purpose of electing officers for the club for the ensuing year. This was not done, however, it having been decided to postpone the formal election until the first Tuesday in February, when it is hoped that a much larger membership of the regular club will be in the city.

Tuesday's meeting, however, proved interesting and successful in every respect, the principal plan which was formulated during the afternoon having been the determination of the club to give a social tomorrow night in the Chamber of Commerce rooms for the visiting tourists, in order that all may become acquainted so that the winter may be more pleasant and interesting to all concerned.

Vice-President Lewis Talks.

Vice President C. B. Lewis of the Tourist club is already in the city, having been settled in his attractive winter home on West Gregory street for some time. Mr. Lewis built this beautiful little residence four years ago, and has come down with his wife from Jacksonville, Ill., for the season regularly ever since.

Built according to a particular plan of its owner, the place is an attractive one, being modestly equipped throughout. It is needless to say that the hospitable home of Mr. and Mrs. Lewis is a popular mecca for the average tourist, especially if he is "doing" Pensacola for the first time.

In fact, Mr. Lewis knows all about Pensacola, considers its climate and its people "far excellence," and can tell you of local attractions in a way which, among other things, is an apt proportion to the local and wholesome "boosting" for Pensacola is concerned. "I came to Pensacola just 27 years ago to survey a new railroad that was going through between Chipley and St. Andrews," he said to a Journal reporter last night. "Mrs. Lewis, who had always been in delicate health, came to this city, and her condition improved so remarkably during our sojourn here, that we decided to visit Pensacola at least every second or third winter thereafter. We were young folk then," and he chuckled in happy reminiscence, "and we enjoyed the place immensely. Four years ago I determined to erect a permanent winter home in Pensacola, and after drawing the plans I had the home I now occupy erected."

Mr. Lewis is also enthusiastic on the productive qualities of the local soil. He gleefully exhibited some particularly crisp, tender little radishes which he said were products of his own garden, and extolled the pleasing fact that upon his arrival this year he found his banana trees beginning to catch the radiating enthusiasm of their owner and energetically prepared to bear in the most approved manner. He and Mrs. Lewis have also had quantities of roses blooming in their yard during the past four happy, wonderful winters, during which they have occupied their present home as actual and very acceptable residents of the city.

Mr. Lewis, who is the life of the Tourist club, was its first president, but of late has refused to serve in that capacity, as the duties attendant upon the holding of the office consumed too much of his time. He has continued to serve the organization, however, as its efficient vice-president, the office also having been combined with that of treasurer. Mr. J. Dickerson, an Alabamian, is at present the president of the club, but will not be present in the city this season. Mr. Lewis says that usually twenty states or more are represented in Pensacola during a season, the majority of tourists coming from the state of Illinois. Indiana is the next most popular on the list, and there are tourists from as far north as Connecticut in the city at the present time. The membership of the club last season numbered 50 persons.

Life 100,000 Years Ago.
Scientists have found in a cave in Switzerland bones of men, who lived 100,000 years ago, when life was in constant danger from wild beasts. Today the danger, as shown by A. W. Brown, of Alexander, Me., is largely from deadly disease. "If it had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough." To cure Sore Lung, Colds, catarrhs, and prevent Pneumonia, it's the best medicine on earth. 50c and \$1.00. Guaranteed by all druggists.

JOHN H. KOHLER RESIGNS FROM SCHOOL BOARD

Made Necessary by Fact That He Has Moved Into Another County.

RESIGNATION WAS FORWARDED TO GOVERNOR GILCHRIST YESTERDAY—APPOINTMENT OF CLYDE E. WILSON IS BEING URGED, AND LETTERS FORWARDED TO THE GOVERNOR.

John H. Kohler, who was elected a member of the county school board in the recent election, has tendered his resignation effective at once. This is

Jno. H. Kohler.

due to Mr. Kohler having entered business in another county, compelling him to move his place of residence.

The resignation of Mr. Kohler was forwarded to Governor Gilchrist yesterday, and it is expected that the latter will fill the vacancy at an early date.

At the same time that the resignation was forwarded a number of letters were sent to the governor urging the appointment of Clyde E. Wilson to the vacancy.

FREEZING TEMPERATURE IS EXPECTED

The Weather Bureau Gives Warning of Cold Wave For This Section.

VERY NOTICEABLE CHANGE IN WEATHER DURING THE NIGHT, THE TEMPERATURE DROPPING RAPIDLY, THOUGH THE FULL FORCE OF THE COLD WAVE HAD NOT REACHED HERE.

Freezing temperature is expected in this section of Florida during today, and if the weather bureau is correct in its forecasts Pensacola will experience the coldest weather of the season. The weather department gave notice Monday of the approach of much colder weather and yesterday the cold wave signal was displayed at the government building.

There was a marked change in the weather during last night, and this morning at 2 o'clock the temperature had dropped many degrees, though the full force of the cold wave had not reached here.

Special Bulletin Issued.
The following special bulletin was issued by the weather bureau yesterday:

"Local Office, U. S. Weather Bureau, Pensacola, Fla., Jan. 6, 1909.—Received from Washington at 11:45 a. m.:

"The cold wave is persistent in the northwest and this morning it covers the entire northern and central portions of the country, between the Rocky Mountains and the Appalachians. It will overspread the east and south tonight to the Atlantic and the Gulf, and it will be still colder in the interior. The cold wave will maintain its severe character and will continue over the eastern half of the country until about the end of the present week, although there will be some moderation in the central west by Friday or Saturday. The line of zero temperature will probably extend into northern and extreme western Virginia by Friday morning and freezing temperature may be expected in northern Florida Thursday morning, and as far south as the twenty-sixth parallel on Friday morning the weather will be generally fair, except along the eastern slope of the Rocky mountains, where there will be snow for a day or two.

"WILLIS L. MOORE,
"Chief U. S. Weather Bureau."

KRESS' INVENTORY SALE CONTINUES THIS WEEK. STILL GREATER BARGAINS.

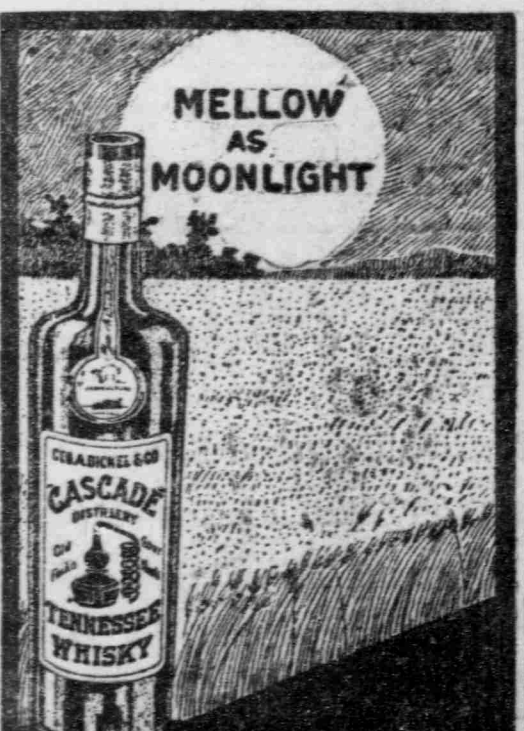

RECORDER'S COURT YESTERDAY MORNING

Forty-four cases were docketed for trial in the recorder's court yesterday morning. Recorder Johnson presiding. Thirty-six defendants were found guilty, two discharged and six cases were continued. Fines to the amount of \$157 were assessed.

Rosa Lee Smith, colored, charged with being drunk and also with cursing, was sentenced to thirty days in jail.

The case against Eugene Sewell, white, who was arrested for having a horse on the streets afflicted with glanders, was continued until this morning.

Twenty-one of the defendants who appeared in court yesterday were charged with disorderly conduct.
